**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ken Muncie on September 15, 2005.

The application has been amended as follows:

**IN THE CLAIMS:**

In claim 1, last line, deleted the term "stoves" and inserted therefore --stove--.

In claim 7, line 2, deleted the numeral "11" appearing after the term "hood".

## **DETAILED ACTION**

### ***Drawings***

1. The drawings filed 12/15/03 are accepted by the examiner.

### ***Allowable Subject Matter***

2. Claims 1-7 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest the combination of a heat control device and portable gas stove having the structure recited in claim 1. In particular, the heat control device as recited includes an inventive structural arrangement of components that provides for improved control of the gas supply over prior art portable gas stoves.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Relevant Prior Art***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patents to Vache, Covault, Chen, and Goto, EPO Patent No. EP 1 500 881 and

Art Unit: 3749

French Patent No. 2 346 642 are cited to show the state of the art regarding control devices for portable gas stoves.
